Welcome to the Royal Borough of Windsor & Maidenhead

Dear Travel Trade and Group Organisers,

Are your customers looking for a stylish break, close enough to the capital to assert a cosmopolitan air, yet far enough away to offer a slightly more relaxed pace of life in a surprisingly rural setting?

Crown Estate, National Trust and Green Belt land make this region one of the greenest in the South East. Add to that arguably the most stunning 20-mile stretch of the River Thames, 1,000 years of history and an unrivalled royal heritage, and it's easy to see why it has become home to some of the country's top sporting and cultural events, a few of the UK's most iconic visitor attractions and some surprising hidden gems.

Windsor Castle is the dazzling centrepiece sat high on the hill for all to admire, but in this guide, you'll find inspiration for things to see and do, activities and experiences beyond the Castle. From boat trips to bus tours, and from museums to escape rooms via Legoland, an arts centre and our very own brewery. Whether you're creating tours for groups or independent travellers, we've got ideas aplenty.

Even better, so many of our visitor attractions, hotels and restaurants are highly accessible and developing sustainable models of operation.

We look forward to welcoming every kind of customer to VisitWindsor.

Windsor for All

The Royal Borough is delighted to be at the forefront of developing its tourism product to be as accessible as possible to visitors with access requirements.

VisitWindsor has worked with **AccessAble** to produce **Destination Access Guides** for Windsor, Eton, Ascot and Maidenhead providing detailed factual information on various shops, hotels, restaurants and tourist attractions. Many partners also have listings on AccessAble (the new name for Disabled Go), like [Windsor Castle](#), [The Savill Garden](#), [French Brothers](#) and [Sir Christopher Wren Hotel](#).

Plus many others have a range of information on their own websites, for example:

Ascot Racecourse is proud to provide an accessible environment for everyone. Guests requiring accessible access can be accommodated at all Racecourse entrances, and once inside there are ramps and lifts to different areas. There is a six-page [Map and Accessibility Guide](#) available on our website and a comprehensive [FAQ section](#).

There is also a dedicated Access Officer who can be reached on access.officer@ascot.com to answer any questions you may have in advance about your raceday.

Windsor Castle is accessible. Concessionary rates are available for visitors with disabilities, and an accompanying companion is admitted free of charge. The Castle is situated at the top of a steep hill, long distances have to be covered and much of the site is outdoors.

An accessible café, toilets, and a **Changing Places** are available. Registered assistance dogs are welcome and a number of Wardens are Dementia Friends, please ask staff for any assistance. The multimedia guide is available in British Sign Language (BSL) and with subtitles.

For detailed access information, please visit the [Royal Collection Trust website](#).

The Long Walk, Windsor

The LEGOLAND® Windsor Resort strives to make sure that the Theme Park, Resort Hotels and other awesome attractions are easily accessible to all their guests.

An Accessibility Experience Team and Guest Services are on hand to assist before and during visits.

Visit Legoland's [website](#) for lots of useful information including an Accessibility Guide, Sensory Guide, Ride Access Pass and Carer tickets.

We are delighted to have become the destination of choice for **Parallel Windsor** - a Festival of Inclusivity with Challenge Events for all ages, health conditions and abilities. Held in the grounds of Windsor Great Park and staged on the Long Walk each year.

Sustainable Visits

Our vision is to be a borough where the community collectively works together to achieve a sustainable future; by protecting and enhancing our natural environment and achieving rapid decarbonisation to net zero carbon emissions by 2050 at the latest.

Sustainability doesn't have to mean that your tours sacrifice glamour for convenience or prestige for practicality. Individual businesses are adapting how they do things to become more sustainable including the ones mentioned here.

There are locally-brewed craft beers, a gin distiller and dining establishments striving to source and serve local ingredients. Many hotel estates grow their own herbs and vegetables, support wildlife, keep beehives and support a quiet revolution with refillable toiletries, solar panel heating, plastic and food waste reduction, composting and rainwater harvesting.

Wild Meadow at Coworth Park

Great Fosters recently switched to 100% renewable electricity supply, mainly derived from offshore wind-power farms. The **Runnymede Hotel** successfully diverts 100% of waste from landfill sites and uses an Eco-Safe Digester to aerobically digest all food waste. There's an underground energy centre at **Coworth Park**, which is the UK's only hotel to grow its own fuel by cultivating willow on the estate for use in the biomass heating plant.

DID YOU KNOW?

The **Macdonald Windsor Hotel** has begun to implement the Room 15 sustainability programme - a more sustainable and ethical approach to the hospitality industry. It's started by installing hives on its roof to protect bees in an urban environment. Plus, the **De Vere Beaumont Estate** has a Green Tourism Award and **Royal Berkshire Hotel** in Ascot is B Corp certified so they have serious eco and sustainability credentials too.

1 ASCOT (EAST COTE)

In 1711 it was Queen Anne who first saw the potential for a racecourse at East Cote while out riding and the first race took place that year. By 1752 the popularity of attending the racing at **Ascot** was popular in social circles.

2 **BISHAM** The dense woods at Bisham provide a dramatic backdrop to its historic buildings. The best known sight in the village is Bisham Abbey, actually a 13th-century manor house built by the Knights Templar. Today it's a conference centre and base of the National Sports Centre.

3 **BRAY** Is a pretty riverside parish between Maidenhead and Windsor, offering fine dining with worldwide acclaim due to the Michelin stars acquired by its resident chefs including Heston Blumenthal and Alain Roux. In this quaint village there are seven stars shared between the Waterside Inn, the Fat Duck and The Hinds Head.

4 **COOKHAM** Is one of the most popular Thameside resorts with its many superb pubs, restaurants and independent retailers. It's home to the **Stanley Spencer Gallery**. One of the greatest British artists of the 20th century, Sir Stanley Spencer was born in the village in 1891. A visit to the gallery is highly recommended followed by a walk around the village and along the Thames Path in the footsteps of the genius himself.

5 **DATCHET** Sits on the banks of the Thames and was the inspiration for Sir Izaak Walton who wrote *The Compleat Angler*. Shakespeare mentioned the village in the *Merry Wives of Windsor* along with Datchet Mead where Falstaff was dumped into a ditch by the Thames. To commemorate Queen Victoria's Golden Jubilee in 1887 an oak tree was planted in the middle of the village; a neighbouring tree was planted for her Diamond Jubilee.

6 **ETON** On the opposite bank of the Thames to Windsor, Eton has been a settlement since Saxon times. The town quickly grew along the present High Street during the Middle Ages in response to the growth of Windsor. It is impossible to think of Eton without reference to its famous public school, **Eton College**. Founded in 1440 by Henry VI, the college at Eton was modelled on the new college at Winchester. Take a stroll from the bridge along the High Street. Don't miss an original marker for the first-ever modern marathon route from Windsor to London from the 1908 London Olympics, or Timbralls where James Bond creator, Ian Fleming, lived during his time at Eton.

7 **HURLEY** The river has always been central to the history of Hurley with records of a ford going back to the 6th century. A monastery was founded here in 1086 and dissolved in 1536. Here you'll find the Olde Bell Inn which dates from 1135 and was built as the monastic guest house. It is one of the oldest pubs in England

8 **MAIDENHEAD** The largest town in the Royal Borough, whose history can be told through its river, its roads and its railway at **Maidenhead Heritage Centre**. 'Grandma flew Spitfires' is the only exhibition in the world dedicated solely to the Air Transport Auxiliary (ATA), many of whom were women, one of the forgotten stories of World War II. Don't miss Isambard Kingdom Brunel's famous brick-built Sounding Arch, which carries the rail line over the Thames. The arch was the setting for Turner's lyrical and dynamic painting *Rain, Steam, Speed* (1844). The beech woods that rise steeply on the east bank of the river here lead to **Cliveden**, set on the cliffs, 200 feet above the Thames. Cliveden was once the home of Lady Astor; the house is now a hotel, surrounded by nearly 400 acres of National Trust gardens and woodland and was where Ms Meghan Markle stayed the night before her marriage to Prince Harry

9 **OLD WINDSOR** Was the oldest Saxon town in Berkshire and the seat of Edward the Confessor. It continued in importance up until about 1100 when it was gradually overshadowed by the building of Windsor Castle two miles upstream. The parish includes within its boundaries most of Windsor Great Park. On the outskirts of Old Windsor is the **Windsor Farm Shop**, stocking a range of products from the Royal Estates and Windsor Farms as well as small local specialist suppliers. Close by is historic **Runnymede**.

10 **WHITE WALTHAM** During World War II an airfield was established at White Waltham which was subsequently used as the headquarters of Home Command of the RAF.

Royal Windsor

There is no escaping the strong connection between the Royal Family and the Royal Borough of Windsor & Maidenhead. On 17 July 1917, George V changed the Royal Family's official name from Saxe-Coburg and Gotha to the House of Windsor.

HISTORY

Windsor Castle is an official residence of His Majesty The King and was Queen Elizabeth II's favourite weekend home. See following page for more information.

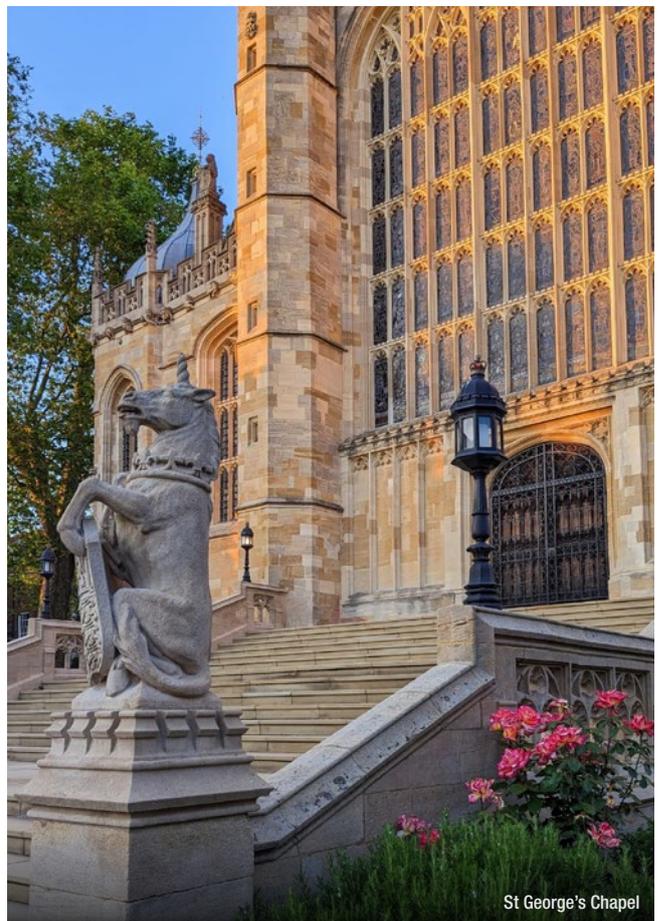

Don't miss the historic **Windsor Guildhall**, set just in front of the Castle and featuring clever architecture by Sir Christopher Wren. It was chosen by King Charles for his wedding to Camilla Parker-Bowles, and Sir Elton John for his civil partnership.

SHOPPING

Windsor Royal celebrates the integration of Windsor Yards and Windsor Royal Station Shopping Centres into one, fantastic offering. Windsor Royal offers fabulous shopping and eating, by appointment to everyone.

Windsor Farm Shop opened originally to sell locally-sourced goods and produce from the Royal Estates and Windsor Farms. Today coaches are welcome to pull in and passengers can enjoy tea in the coffee shop as well as buy edible souvenirs.

Windsor Castle

Windsor Castle is the oldest and largest inhabited castle in the world. It's been the family home of British kings and queens for almost 1,000 years and is today one of the official residences of His Majesty The King.

Occupying over 10.5 hectares, the Castle offers a varied day out for visitors, including a visit to the magnificent **State Apartments** and **St George's Chapel**. The Castle's State Apartments are furnished with some of the finest works from the Royal Collection, reflecting the changing tastes of the Castle's royal occupants, particularly those of Charles II and George IV. Among the masterpieces on display are paintings by Holbein, Rubens and Van Dyck, Sèvres porcelain and exquisite English and French furniture.

The largest and most famous Dolls' House in the world is also on display. **Queen Mary's Dolls' House** is a perfect 1:12 scale replica of an Edwardian residence, complete with electricity, working lifts and running water. Please note: Access to Queen Mary's Dolls' House may be limited on busy days.

Visitors can take a self-guided tour of the Castle with a free multimedia tour. From October to March, visitors can also walk through the sumptuous **Semi-State Apartments**, which served as the private rooms of George IV in the 19th century.

Refreshments can be enjoyed in the **Undercroft Café**, situated in one of the oldest medieval parts of the Castle.

Royal Collection Trust welcomes enquiries from members of the travel trade and group travel organisers in the United Kingdom and overseas.

River Thames & Boating

Messing about on the River Thames is a wonderfully relaxing way to enjoy the Royal Borough from a different perspective, and can be an excellent complement to a packed itinerary. Choose to let your own captain steer though the picturesque riverside sights and scenery, or skipper your own boat and go as you please.

CRUISE WITH A CAPTAIN

French Brothers is renowned as the major River Thames excursion company at Windsor, and offers scheduled sightseeing trips with full commentary from 40 minutes to 2 hours. Taking in wonderful views of Windsor Castle, Eton College and pretty Datchet, depending on your route, the multi-decked boats can accommodate large groups and offer a range of refreshments on board. Private charters for bespoke groups are also available.

Embark at Maidenhead's Riverside Gardens with the **Windsor & Maidenhead Boat Company** and enjoy an excursion on board the Georgian, including lunch or tea as an individual or small group. Larger groups can enjoy private hire with every trip including a food element, live commentary and the all-important cup of tea or coffee. Depending on the season there are themed cruises e.g. Santa Cruise and corporate party offers.

Thames Charters work out of Windsor Racecourse Marina, where classic motor yacht Domani can entertain up to 12 guests with a skipper for a day excursion or transport along the river.

SELF-SKIPPERED BOATS

Kris Cruisers offer a range of holiday cruisers that can be hired sleeping 2-10 people for weekends or weeks. Perfect for an extended river trip at your own pace, you can explore the whole 124-mile length of the River Thames passing through towns such as Hampton Court, Cookham, and Henley.

For a spontaneous hour relaxing on the Thames at Windsor, look no further than **John Logie Motor Boats**: this fleet of motor boats and rowing boats can accommodate up to 10.

Evening Entertainment

When the day trippers have gone home and the attractions have typically closed for the night, there is still much to entertain visitors staying later and longer.

SPECIAL BARS

Windsor is a pretty special place for cocktails and cool wine bars like our newest arrival **Incognito Bar**, which defies description; you'll just have to try it! Around for significantly longer is **The Cobbles** at Drury House - Windsor's oldest tearoom and, prior to this, home to the favourite mistress of King Charles II, Nell Gwyn. Drink and dine in rooms steeped in over 400 years of history.

Nearer Maidenhead check out **Norden Farm Centre for the Arts** for craft beers from local brewers such as Rebellion, Loddon and Lovibonds and carefully selected wines. You can choose to take in a show while you're there, or not.

LATE NIGHTS

The only venue offering live music throughout the week in Windsor is the **Old Ticket Hall** at Windsor & Eton and Riverside Station. Open Wednesday to Sunday, music ranges from acoustic acts to live bands with DJs to follow until 2am.

In **Royal Windsor** after the shops have closed for the day, there is still plenty of entertainment to be enjoyed. Eating and drinking in All Bar One, Bill's, Patch on the Plaza and Cattle Grid is possible till 11pm, but if late night drinking and dancing is on the menu then there is the nightclub Labyrinth Windsor that opens up to 3am.

BOOK A SHOW

The Old Court Arts Space, 15 minutes' walk from town centre, offers a wide range of entertainment, including regular cinema screenings and it's worth checking their frequently updated programme.

Theatre Royal Windsor has existed on its current site in the shadow of Windsor Castle since 1815. Today it offers a range of evening shows from Shakespeare to Pantomime, which changes every few weeks. Check the website for what's on.

DID YOU KNOW?

Groups can enjoy a very special after-hours tour of the State Apartments at Windsor Castle, concluding with a glass of champagne? Perfect pre-dinner entertainment. Please see page 21 for more details.

Free Things to Do

Visiting on a budget is not a problem in the Royal Borough with plenty of ways to explore and enjoy the area for nothing. Walking tours and trails are a great use of free time and explain much of the area's history.

WALKWAYS

In Eton there is a specially marked **Eton Walkway** celebrating the small town's rich heritage. It connects 18 points of interest to Eton College on a two-mile circular walk.

The Queen's Walkway walking route is a symbolic 6.373km long for the 63 years, 7 months and 3 days of Queen Elizabeth II's reign when she became Britain's longest reigning monarch, and links 63 of Windsor's best attractions, features and views.

A **riverside walk** in the direction of the railway viaduct, just near to Windsor's Alexandra Gardens, brings you to a unique point of interest: a full-size replica World War II aircraft! The **Hawker Hurricane** is a lasting memorial to Windsor resident Sir Sydney Camm CBE FRAeS (1839-1966).

STAY UNDERCOVER

Attend **Evensong at St George's Chapel**: the service lasts around 45 minutes, sung daily by the Chapel Choir daily at 5.15pm except Wednesdays.

Visit Windsor Guildhall, which houses **Windsor and Royal Borough Museum** or simply stroll to Windsor & Eton Central Station home to **Windsor Royal** - excellent for window shopping inspiration.

SCULPTURE TRAIL

The Copper Horse depicting George III on horseback at the end of the Long Walk in Windsor Great Park is one of the most striking sculptures and can be seen from miles around. The view when you get there is worth the effort.

The Windsor Lady is one of the newest, created to celebrate Queen Elizabeth II's Diamond Jubilee in 2012. Located in the town's Bachelors Acre, it depicts Her Late Majesty surrounded by six Corgis.

Sir Nicholas Winton MBE has a statue on platform 3 of Maidenhead railway station. During the Second World War, Winton devised a programme to transport unaccompanied Jewish children to London. Thanks to him 669 child refugees were rescued.

Sir Antony Gormley's Edge II statue was commissioned by Eton College in 2001 and it has been attached high up on Common Lane House since 2002.
